

## 2018 VP and Commercial Sources Chair Report

Most effort as VP was spent on Bylaws revision and the start of Policy documentation. The revised Bylaws were approved by the Board and the HIPS membership.

The Commercial Data sheet was updated with the help of several volunteers and moved to a Google sheet online, so changes can be viewed immediately. This sheet is now linked on the HIPS website. There is a problem with vendors not responding to the email requesting the annual update yet still being included in the "free advertising" of the data sheet posted on the HIPS website for use by members. This will need to be addressed.
