

North Central Region Report 2018

We attended the National Convention and will again this year. I also attended HIPS Board meetings regularly to participate in discussions and decision-making. We promote historic iris at every opportunity. We adopted about 80 old noids to grow out and attempt to identify. We donated quite a few to the HIPS sale and will do so again this year, helping to spread those rare varieties as much as possible. We also are mapping and inventorying what we have in our garden. Looking forward to another iris bloom season.

Delane Langton
North Central Regional Director
