

ROOTS Annual Report for 2018

We published two editions of *ROOTS* in 2018. The 40-page Spring edition contained information on various types of garden markers, instructions regarding the Rhizome Sale, and a variety of articles on iris rescues and HIPS projects. The Fall issue was our 30th Anniversary issue; it had 48 pages and featured a historical timeline of HIPS, an overview of our new Breeder Collections Program, and an insert of the proposed Bylaws amendments plus a ballot for members to submit for approval of the Bylaws. This extra-large anniversary issue was very well received.

I also chaired the Bylaws Committee, composed of myself, Susan Flow, Shaub Dunkley, and Dave Prichard. After a year of work, the revised Bylaws were ready to submit for Board and member approval. The Board approved them in August, 2018, and the members voted to approve them in early 2019.

Articles and ideas for *ROOTS* are always welcome. Please contact me at editor@historicism.org for more information.
